

## Register domains by SMS

Would you like to have the possibility to register domain names when you don't have access to a computer? It is now possible to **register domain names by SMS** at domaxxx.de!

- To be able to use this service you first need to log-in to your control panel and **activate the SMS service** (User Account / Personal Settings / Defaults).
- You will also need **appropriate assets** on your domaxxx.de account respectively an activated payment method like direct debit, credit card or bank transfer.

### Fast and easy!

#### Type in for each line the following data:

1. Line 1: Enter the keyword **domain**
2. Line 2: Enter the desired **domain name**
3. Line 3: Enter your **User-ID**
4. Line 4: Enter your **SMS password**

Deviating or further inputs in the SMS are **not** processed!

Send the SMS to the number specified in your configuration eMail after activating the service.

- After receiving your SMS, the system automatically checks the domain name for **availability**.
- You will get an SMS whether the domain name is **available** or not.
- Your order will be performed if the domain name is **available** and you have **prepaid credits** on your account or rather your customer account is activated for direct debit, bank transfer or credit card payment.
- After registration you will get a **confirmation by SMS** and eMail.

For each SMS, received from you on our SMS number, a **one time fee** of **EUR 0.44** must be paid by you, whether or not the registration can be completed.
